Contents

1	Microsoft MFA Setup.....	3
2	Access to RDS Servers	4
3	Office 365 – Shared Computer Licensing.....	6

1 Microsoft MFA Setup

- Open <https://aka.ms/MFASetup>
- Login with your **Intelligence email address** and SOLCO password
- Choose at least one of the three following authentication methods as default & check the numbers in the columns beneath
- Click on "**Save**" and verify your authentication method according to your settings
- **Note: text or app code is not functional for RDS login yet!**

Microsoft

Additional security verification

When you sign in with your password, you are also required to respond from a registered device. This makes it harder for a hacker to steal your account. [View video to know how to secure your account](#)

what's your preferred option?

We'll use this verification option by default.

Notify me through app

1 Call my authentication phone

2 Call my office phone

3 Notify me through app

Use verification code from app or token

☒ Authentication phone

☒ Office phone

☐ Alternate authentication phone

☒ Authenticator app or Token

Set up Authenticator app

Authenticator app - iPhone Delete

Save cancel

Your phone numbers will only be used for account security. Standard telephone and SMS charges will apply.

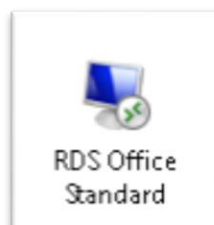

2 Access to RDS Servers

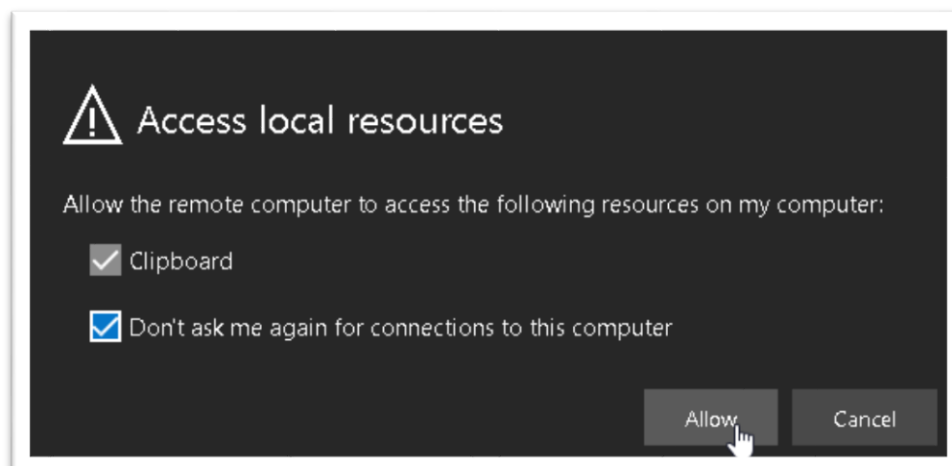

- Open <https://rds.itelligencegroup.com>
- Login with your **Itelligence email address** and SOLCO password

A sign-in form with a dark background. At the top, it says "Sign in". Below that, there are two input fields: "User name" with the text "franz.fiedler@itelligence.de" and "Password" with masked characters. At the bottom left, there is a link for "Privacy policy". At the bottom right, there is a blue "Sign in" button.

- Click on **"RDS Office Standard"**

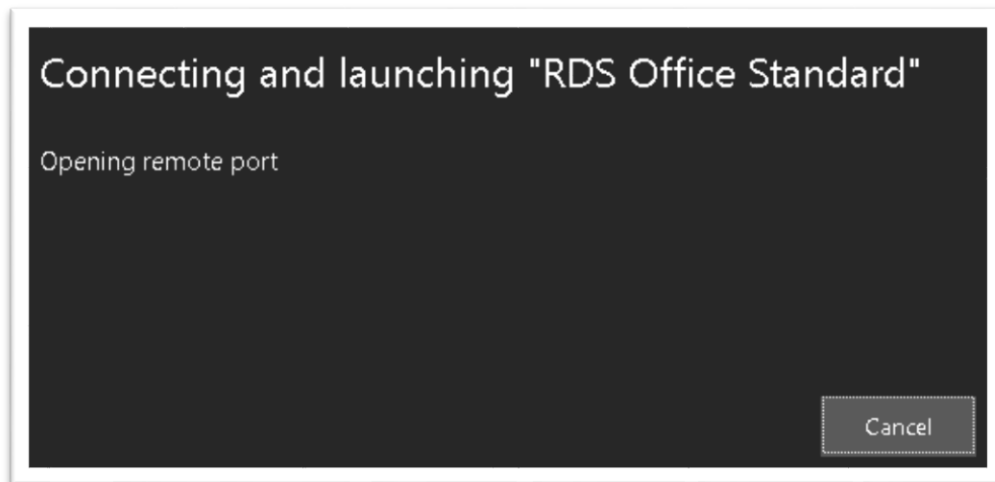

- Choose local resources to map, block the reminder if you want and click on **"Allow"**

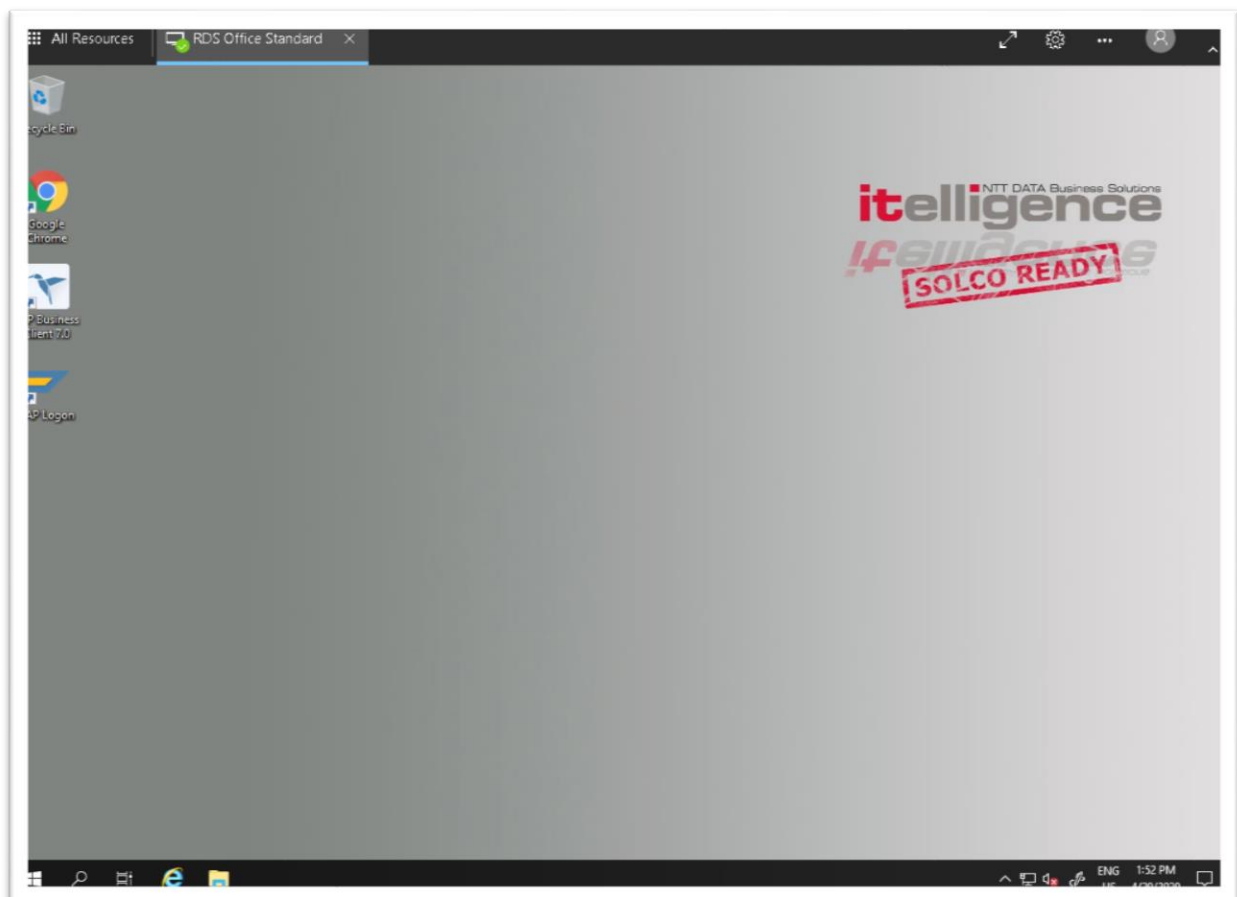

- Confirm Microsoft authentication according to your settings, while the connection will be established

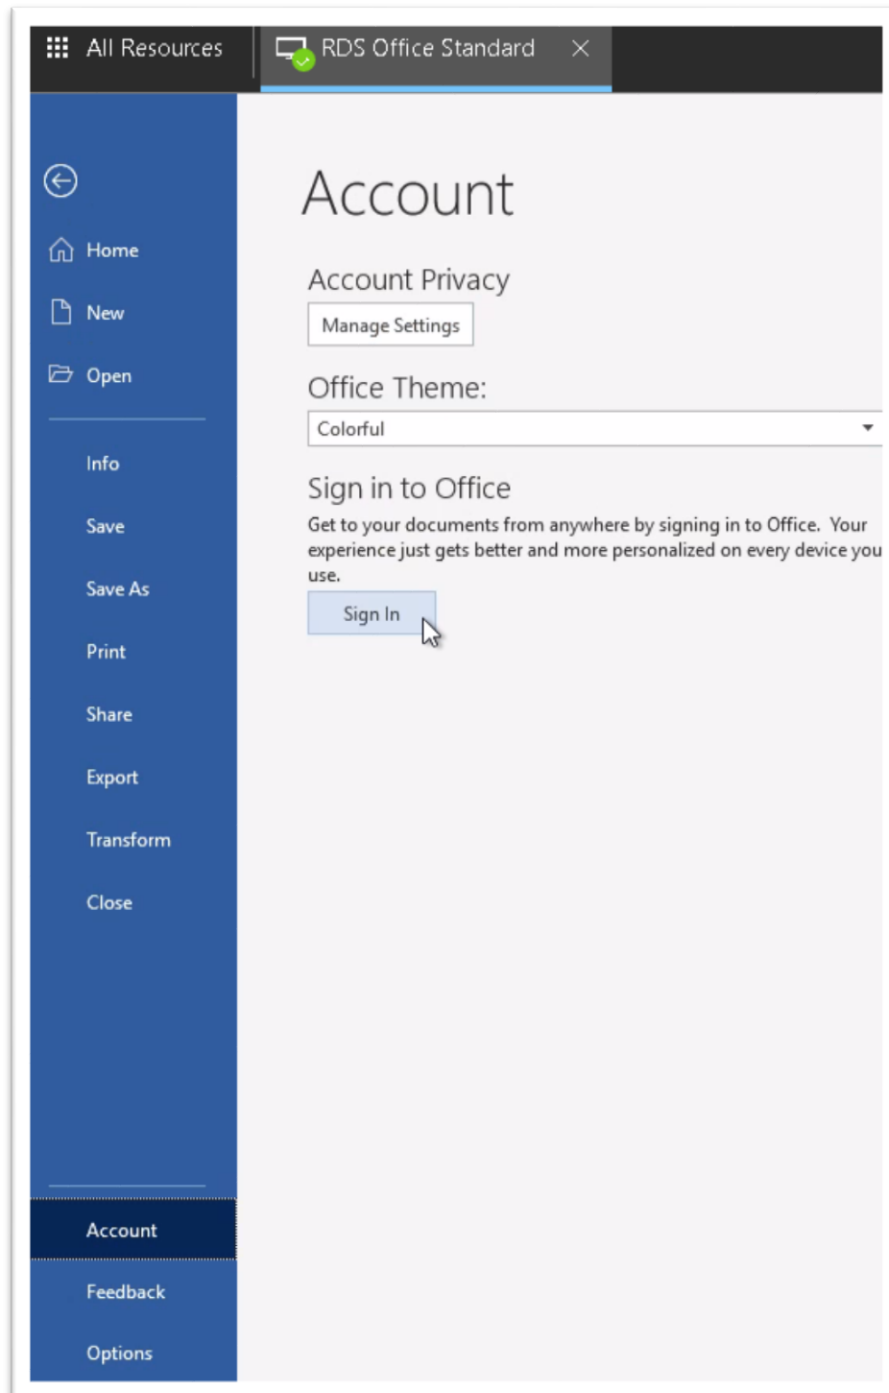

- RDS Office Standard Desktop will be started

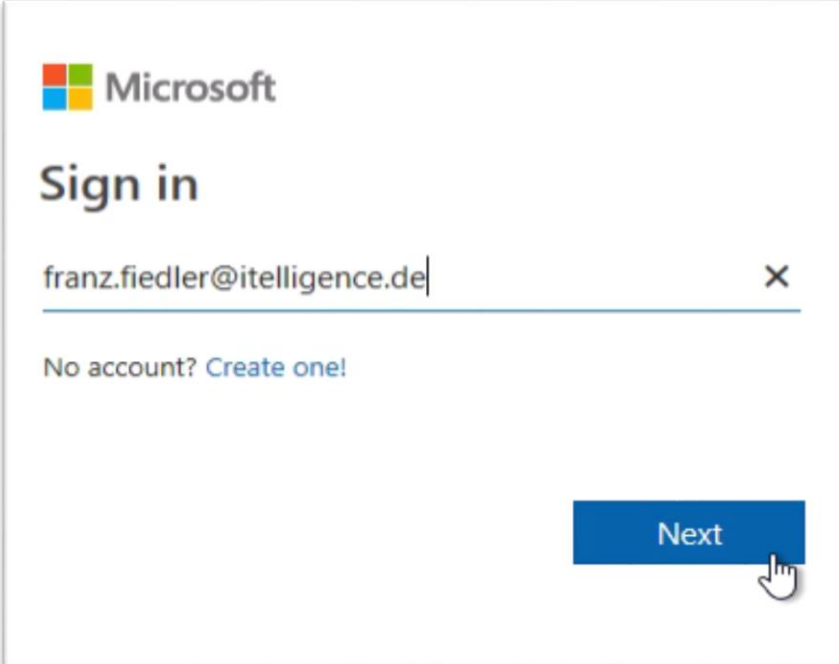

3 Office 365 – Shared Computer Licensing

- Start an office program like Word or Excel
- "Sign In Window" will show up -> click "**Sign In**"
- Otherwise click on **Account** and then "**Sign In**"

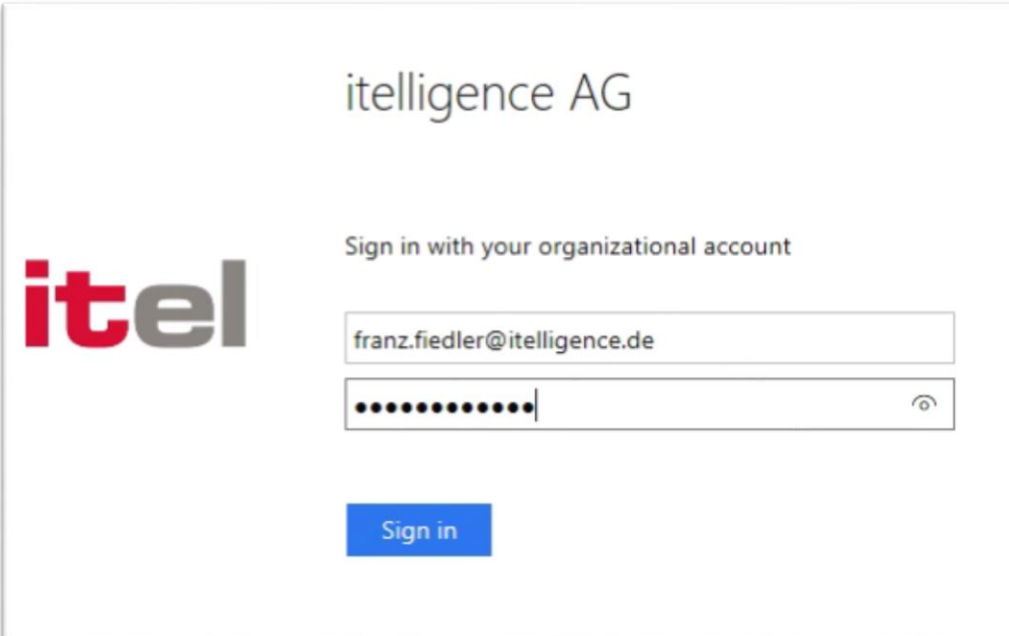

- Sign In with your **Itelligence Email address** and then click "**Next**"

The image shows a Microsoft sign-in window. At the top left is the Microsoft logo. Below it, the text "Sign in" is displayed. A text input field contains the email address "franz.fiedler@itelligence.de" and has a small 'X' icon to its right. Below the input field, the text "No account? [Create one!](#)" is visible. At the bottom right, there is a blue button labeled "Next" with a mouse cursor hovering over it.

- Insert your SOLCO User password and click "**Sign In**"

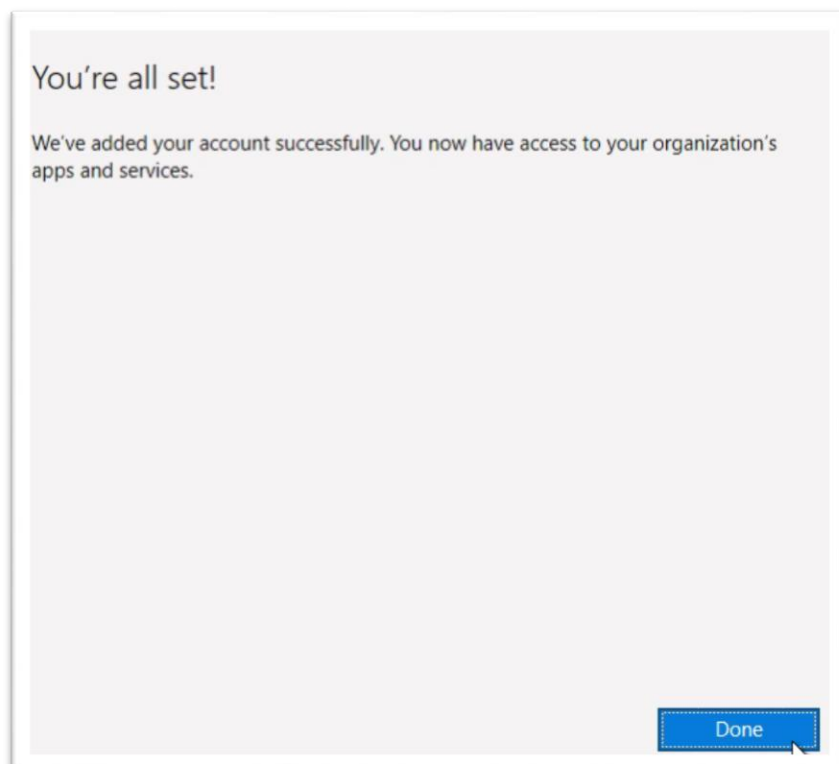

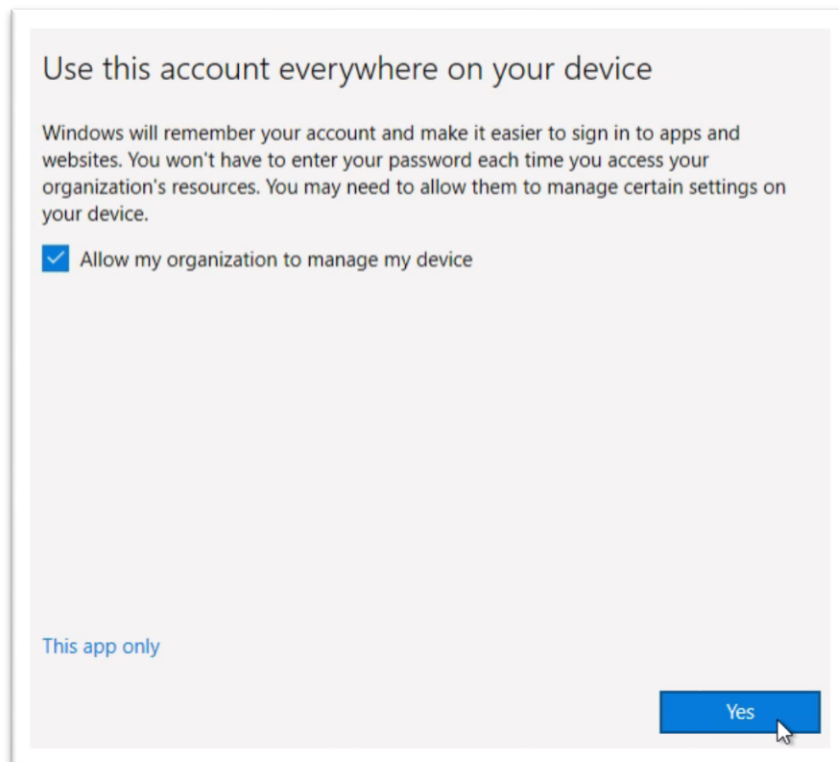

The image shows the itelligence AG sign-in page. At the top center, the text "itelligence AG" is displayed. On the left side, there is a large "itel" logo. To the right of the logo, the text "Sign in with your organizational account" is shown. Below this text are two input fields: the first contains the email address "franz.fiedler@itelligence.de", and the second contains a series of dots representing a password, with a small eye icon to its right. At the bottom center, there is a blue button labeled "Sign in".

- Confirm Microsoft authentication according to your settings

- Click on **Yes** in this popup and you are done!

- At least you need to associate file types for office (we recommend XML formats)
